

RECENT WORK

Time Management Corp

www.timemgmt.com
(AJAX, SEO, HTML/CSS)

While working at Time Management, I assisted in SEO and HTML/CSS. Wanting to increase their rankings, I assisted to ensure AJAX content was captured by search engines, as well as advising on proper DOM structure.

Pink Bow City

www.pinkbowcity.com
(WordPress, jQuery/JavaScript, HTML/CSS)

Consulted by a friend, I assisted her with WordPress, PHP, JavaScript and HTML in creating new pages, adding video and content to the site.

Alternative Brand Marketing

www.alternativebrandmarketing.com
(HTML5, CSS3, MySQL jQuery/JavaScript, PHP)

I created a back end administrative console to allow teams to upload new events and clients for their portfolio. Performed virus / malware removal and implemented ways to help prevent against further attacks.

AMP Lawn Services

www.amplawnservice.com
(WordPress, HTML, CSS)

I used WordPress to design a website that showcased their services.

EMPLOYMENT

Fusion Room

Front End Developer
1/2013 - Present

Contracted to FindLaw, a Thomson Reuters business. I worked with the FED team to create websites for attorneys and law firms. Technologies used: HTML5, CSS3, JavaScript / jQuery, LESS, Responsive Web Design, Sublime Text, Adobe CS6, FreeMarker, Movable Type and an internal CMS.

Time Management Corp

Developer
8/2012 - 1/2013

Responsible for building a payroll application which interfaces with our object oriented & relational databases. Technologies used: ASP.NET MVC3, MSSQL, VS2010

Time Management Corp

Software Support Specialist
1/2009 - Present

I supported software on Windows (XP, 7, Server 2003/2008) and some Linux systems such as Cygwin. Analyzed and supported issues in databases (MSSQL 2005/2008, Btrieve and DBF) as well as scripts that interact with each system. Administrated team Wiki pages, VM Server and assisted with maintaining company images with Norton Ghost.

SmithMicro Technologies

Mobile Team / Configuration Specialist
12/2007 - 1/2009

Supported 3M's Mobile Sales Team's with data recovery & hard drive encryption using Safeboot, migrations between systems, application support, virus removal while maintaining SLA's. Maintained team websites and software tools with new updates or knowledge to help maintain consistency throughout our team.
